We could issue it as a separate blast to the Congs to remedy that. Sorry for not catching that sooner.

Should we add this from the water quality data fact sheet?

Draft responses to questions from CBS News This Morning. Please review and provide any comments, suggestions.

Thx. Rich 303-312-6654

At this point how much waste water is coming out of the Gold King Mine?

**Deliberative Process/Ex. 5**

Where is the plume now? When do you anticipate it will reach Lake Powell?

**Deliberative Process/Ex. 5**

Any more information on potential risk to human health?

Paula - Seems like you all have enough info to answer here. Could you or Rich get back to her?

Hi there,

Checking to see if someone will be able to get back to me tonight.  
This is for a piece we're working on for tomorrow morning.

Thank You

Hi Myra,

Paula will get back with you on your questions since she is in Colorado.

David

**Subject:** CBS This Morning Inquiry

Hi there,

I wanted to follow up with some questions I had after today's conference call....

At this point how much waste water is coming out of the Gold King Mine? I know yesterday it was around 500 gallons/minute. Is that still the same?

Where is the plume now? When do you anticipate it will reach Lake Powell?

Any more information on potential risk to human health?

Many thanks in advance,

Myra Zuleta
